- Once connected to the web, select the Call Me option and provide your phone number.
- If you have trouble connecting to audio via Call Me, please call 669-234-1178 OR 844-531-0958 and use access code 9273 89720.
- This webinar will be recorded.

For further webinar assistance, contact Lisa Gold, lgold@us.ibm.com.

*Please note that you **must** attend the entirety (90 minutes) of this webinar if you wish to receive Continuing Education credits.*
Specialized Services & Lessons Learned - A Panel Discussion

FRANK L. TETRICK – PTAC FACILITATOR

MELANIE FEDDERSEN – VERMONT
ALEXANDRIA CHILDERS-SCOTT – IDAHO
TERRY HEHEMANN - WASHINGTON

MARCH 12, 2019
POWER AND POSSIBILITY OF PASRR WEBINAR SERIES
Learning Objectives

- Understand Code of Federal Regulations regarding Specialized Services
- Understand options for providing Specialized Services
- Understand what led to panel states to begin providing Specialized Services
- Understand the type of challenges states can encounter in developing their model of Specialized Services
- Learn about the range of providers of Specialized Services in panel states
- Understand how Specialized Services have impacted nursing facility (NF) residents in the panel states
- Learn what panel states believe would be helpful to other states that want to offer access to Specialized Services
Panel Participants

Melanie Feddersen, Developmental Disabilities Services Specialist
Vermont Department of Disabilities, Aging and Independent Living

Terry Hehemann, Program Manager
Developmental Disabilities Administration, Washington State
Department of Social and Health Services

Alexandria Childers-Scott RN, BSN
Medicaid Program Policy Analyst, Long Term Care Division of Medicaid
Idaho Department of Health and Welfare
Background
Specialized Services
§483.21 Comprehensive person-centered care planning

(b) Comprehensive care plans. (1) The facility must develop and implement a comprehensive person-centered care plan for each resident, consistent with the resident rights set forth at §483.10(c)(2) and §483.10(c)(3), that includes measurable objectives and timeframes to meet a resident's medical, nursing, and mental and psychosocial needs that are identified in the comprehensive assessment. The plan must describe the following:

(iii) Any specialized services or specialized rehabilitative services the nursing facility will provide as a result of PASARR recommendations. If a facility disagrees with the findings of the PASARR, it must indicate its rationale in the resident's medical record.
Subpart C
483.100 – 483.138

§483.120 Specialized services

(a) Definition—(1) For mental illness, specialized services means the services specified by the State which, combined with services provided by the NF, results in the continuous and aggressive implementation of an individualized plan of care that—

(i) Is developed and supervised by an interdisciplinary team, which includes a physician, qualified mental health professionals and, as appropriate, other professionals.

(ii) Prescribes specific therapies and activities for the treatment of persons experiencing an acute episode of serious mental illness, which necessitates supervision by trained mental health personnel; and

(iii) Is directed toward diagnosing and reducing the resident's behavioral symptoms that necessitated institutionalization, improving his or her level of independent functioning, and achieving a functioning level that permits reduction in the intensity of mental health services to below the level of specialized services at the earliest possible time.
(2) For intellectual disability, specialized services means the services specified by the State which, combined with services provided by the NF or other service providers, results in treatment which meets the requirements of §483.440(a)(1).

(b) Who must receive specialized services. The State must provide or arrange for the provision of specialized services, in accordance with this subpart, to all NF residents with MI or IID whose needs are such that continuous supervision, treatment and training by qualified mental health or intellectual disability personnel is necessary, as identified by the screening provided in §483.130 or §§483.134 and 483.136.
§ 483.440 Condition of participation: Active treatment services.

• (a) **Standard: Active treatment.** (1) Each client must receive a continuous active treatment program, which includes aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services described in this subpart, that is directed toward -

  (i) The acquisition of the behaviors necessary for the client to function with as much self determination and independence as possible; and

  (ii) The prevention or deceleration of regression or loss of current optimal functional status.
(a) **Level I: Identification of individuals with MI or IID.** The State's PASARR program must identify all individuals who are suspected of having MI or IID as defined in §483.102. This identification function is termed Level I. Level II is the function of evaluating and determining whether NF services and specialized services are needed.

(5) If specialized services are recommended, identifies the specific intellectual disability or mental health services required to meet the evaluated individual's needs.
Is the state obligated to provide specialized services to private pay individuals? - March 2018

- If an individual enters a NF with private pay, and is judged by PASRR to need specialized services, the state does have an obligation to help arrange for the provision of specialized service -- though not to pay for them, at least not until the individual becomes Medicaid eligible.
Financing or Arranging for PASRR Specialized Services for Individuals With Serious Mental Illness: Medicaid and Medicare Options – May 2017

• The contents of this paper should be useful to state staff who recognize that there are gaps in the way their states provide Specialized Services but are unsure how to pay for those services.

• Similarly, the content should be useful to states that currently fund Specialized Services through state-only dollars and would like to recoup at least some of the money they spend by making those services reimbursable through Medicaid.

• Paper goal is to illuminate the possibilities for financing or arranging Specialized Services, so that states can more readily supply these critical services to NF residents who need them.
PASRR Specialized Services in the Medicaid State Plan: Washington's State Plan Amendment - September 2015

Paying for Specialized Services: New Mechanisms for States - February 2014

Specialized Services and Case Management: Individuals with ID/DD – January 2013
Specialized Services Office Hours: Upcoming and Previous Workgroup Calls – The purpose of these office hours is to help states understand the new guidance CMS has developed to enhance and finance Specialized Services. The goals of the office hours are to:

- Articulate CMS’s vision for a more person-centered model of Specialized Services as identified in the new guidelines
- Engage other key stakeholders that can support Specialized Services initiatives
- Promote a method and place for states, CMS, and PTAC to learn about Specialized Services together

PANEL DISCUSSION
State Panel Discussion

When did you first start providing Specialized Services and what prompted your state to begin providing Specialized Services?
State Panel Discussion

Are these services part of your nursing facility benefit?

If so, can you comment on how you went about adding Specialized Services to the benefit?
State Panel Discussion

What challenges did you encounter in developing your model of Specialized Services?
State Panel Discussion

Who are the providers of Specialized Services in your state?
State Panel Discussion

Have you seen an impact of Specialized Services being provided to nursing facility residents?
State Panel Discussion

What "lessons learned" would be helpful to other states that want to offer access to Specialized Services?
State Panel Discussion

Do you have any recommendations for states that may be considering working on adding Specialized Services to their nursing facility benefit?
QUESTIONS
THANK YOU
